`We are pleased to be able to continue to offer you quality trainings through a virtual platform during these unprecedented times.

In order to keep our attendance lists most accurate, we ask that you do not share the meeting link with anyone. If you are registering multiple people from your staff for training, please make sure we have a list of who will be attending in advance. **We need to know who is in our audience, as this will help us to send feedback surveys and certificates to the correct people.**

Please know that failure to follow this process may prevent you from joining a training session.

Here are some other items to keep in mind to make our trainings the best they can be:

- Join the training a few minutes early, particularly if you aren't familiar with attending Zoom. In addition, be sure you take some time to make sure the device you will use for the training is charged and ready to go! Check compatibility guidelines by clicking on the link prior to the event.
- Problems with the link? If for some reason your link does not take you directly to the training, go to www.zoom.us. Click "join meeting" at the top of the screen and enter the meeting ID and password provided.
- Be aware that the video feature will be used. It is both helpful to the conversation and nice to connect with faces! Keep this in mind and present yourself in a way you feel comfortable, yet professional.
- Avoid walking around with your device as you participate in the training! If your video feature is on, you are taking us with you - this can be very distracting.
- Join the training from a quiet space. You may be muted by the trainer to eliminate background noise.
- Use the "Chat" feature if you have a question specific to your classroom/home settings and we can arrange a time to talk in more details afterwards. As the training event is just one hour, there will not be much time to address individual concerns during the event.
- Be an active participant! Come ready to share your thoughts with others. Our trainers love learning from their participants.
- Plan to learn and have fun!
- Lastly, for security purposes, you may be placed in a waiting room upon activating your link. Access will be allowed before the start of the training.
